Mountain Weather Forecast

Brecon Beacons National Park

Forecast valid from 06:00 on Wednesday 11 Oct 2023 until 23:59 on Thursday 12 Oct 2023

Forecast Issued on Wednesday 11 Oct 2023 at 01:01

Confidence: High for rather unsettled through the coming days and colder than of late but lower for details of cloud and rain, especially Thursday and Friday, due to uncertainties over the position of a slow moving front over the southern UK. Higher again for a largely fine weekend.

Headline for Wednesday 11 Oct 2023: Cloudy with occasionally heavy rain. Strong south-westerly winds easing

Mountain weather hazards on Wednesday 11 Oct 2023

Forecast for Wednesday 11 Oct 2023

Weather: Cloudy with extensive hill fog and patchy rain and drizzle at first. More persistent rain arrives through the morning, this becoming occasionally heavy, during the afternoon. The rain turns patchier again through the evening.

Chance of cloud-free hill tops above 600m: Close to zero at first but becoming around 25% in west and 60% in east through the morning. Likely falling close to zero again in the evening.

Low cloud and visibility: Periods or persistent from below 300m at first but lifting to 450-600m through the morning, and becoming occasional above 750m at times in the east, the cloud becoming more persistent again above about 450m in the evening. Away from cloud visibility good falling to several kilometres in rain and drizzle.
